July 15 [Wednesday], 2020

Dear Parents / Guardians,

As you all know that, Covid-19 has mercilessly shaken all activities worldwide. In such a scenario, even our school is largely affected in discharging basic activities. There is no dispute that re-opening of the school should be an important step. Already Online teaching has been started to balance void of academic progress to some extent. Also it is good sign that we have received encouraging response from the student for online teaching. But it is also to be accepted that, students who stay in rural areas may have problems in getting connected with online teaching due to technical issues. I would like to assure you all that, online teaching is temporary arrangement. Once this critical situation is overcome school will be reopened immediately on receiving instructions from the Government.

I express my gratitude to you all for your support and concern for the school. To supplement all your aspirations, every action will be taken for implementing safety measures especially new concepts like sanitization, wearing mask and maintaining social distance.

Already two huge, state of art dormitories are under construction, I would like bring to your kind attention that within a period of 14 months the new dormitories at an estimated cost of Rs. 20 Crore shall enhance the beauty of the proud campus..

At this tough time, in order to counter the mounting maintenance costs, may I, request you to extend your graceful support for progress of school by remitting school fees timely.

With warm regards,

Dr. Mahendra S. Kanthi, PhD [UK/USA]
Chairman
