Dear Parents/Guardians,

Good Health Greetings.

We are aware about Covid-19 menace as a global pandemic. It has not only affected the conventional teaching-learning process but also kept students away from regular school activities. Kittur Rani Channamma Residential Sainik School for Girls (KRCRSSG) is no exception. Thanks to our Principal, teachers and staff, who have stood strong to their commitments and responsibilities, even during these difficult days. The teachers of our school have put in extraordinary efforts to keep the students engaged through online interaction with students. They are conducting virtual academic classes to students, counseling students and meetings with parents/guardians. The stake holders are continuously updated with day-to-day happenings about school. On the other hand, the staff members are upkeeping the school infrastructure neat and tidy. Class room areas, school amenity spaces and dormitory premises are medically sanitized for hygiene and safety. Further, in order to provide safe and comfortable stay, two more dormitories are being constructed at an investment of Rs. 20.00 crores.

We now await Government nod for children to return to school and give life to the campus. At this time, I put forth a humble appeal to all parents and guardians to complete the admission fee formalities of your child at the earliest. This will be of timely help to operate and maintain the school on a continuous basis. Hope you will oblige to our call and cooperate.

With warm regards,

Stay Safe Healthy Jolly...
